

Hot Foil Coders

40/25c Hot Foil Coder

The 40/25c hot foil coder is the entry level hot foil coder capable of reproducing a consistently high print quality on a range of substrates at high speeds. The unit is suitable for printing expiry dates, product identification information and lot/batch numbers. The unit is suitable for use in many production environments including the food, pharmaceutical and cosmetics industries and is well suited to numerous industrial applications. The unit can be used as a standalone unit or integrated into an existing production line with a variety of host equipment.

Key Features

- **38mm x 25mm print area**
- **Suitable for integration with labelling and packaging machines**
- **High speed**
- **Compact, reliable and robust**
- **Comprehensive range of typeholders**

SPECIFICATIONS

Print Area	38mm x 25mm
